ILLINOISJOBLINK.COM SELF-SERVE JOB SEEKER USER GUIDE

Internet Entry

These are the *new* step-by-step guidelines you will need to register for the 2017 ASSA Professional Placement Service using an online labor exchange system called **IllinoisJobLink.com** (IJL). Included in the new guidelines, beginning on page 11, are the JEL Classification Codes used by **Job Openings for Economists** (JOE) from the **American Economic Association** (AEA) Web site. These may be used when selecting a Job Title/Titles in the New Resume section for your resume(s), and referencing JEL secondary level codes as a guide for keywords you may wish to include when conducting an advanced job search for the right job openings. The ASSA Professional Placement Center will be located this year in Riverwalk A & B of the Sheraton Grand Chicago, January 5th through 8th from 8:00 am through 5:00 pm each day.

These comprehensive guidelines explain how to register a new account in the “Create an Account” section as well as how to create a “Plus Account” which will enable you to post a resume and select the “talents” you should use to find the best jobs you are most qualified to fill. You can also use it to update your registration and resume.

IllinoisJobLink.com was designed for ALL job openings for people to fill all different work backgrounds. Therefore, it is highly recommended you follow these guidelines carefully to maximize your matching potential to the right jobs, especially when selecting your Resume Title and “Job Title” in the Resume Build section of your Plus Account. Also, you should use the **60603** ZIP Code wherever you are instructed to do so to ensure that you match to ASSA job postings utilizing that same ZIP code in order to match to you, even though that may not be the ZIP code you wish to work in. You are encouraged to print this guide out (at least the first 11 pages) before starting so you can write down your user name and password on the front cover. You may wish to check off the little hollow circles in the margin as you complete the steps in the checklist format of the guide so you don’t lose your place. We also suggest you have your resume at hand online, specifically in a Microsoft Word document in order to attach it to **IllinoisJobLink.com**. Otherwise you will have to build a resume in the system from scratch. For best results, you should use Internet Explorer or similar browser.

If you wish to use the system as a job seeker for this year’s placement service, we ask you to send us an e-mail to jay.oconnor@illinois.gov so that we may track your profile to make sure you have entered/updated everything to your advantage. In your e-mail, type in:

1. Job Seeker
2. Your name
3. Address you entered in the system
4. Phone number
5. E-mail address you can be contacted for a response
6. Select **new** or **returning** job seeker (if you have used the system in previous years.)
 - If this is *not* your first time, reentry instructions are on page 10.
 - If this is your first time, go to www.illinoisjoblink.com.

IllinoisJobLink.com Home Page

1. Click on the *Job Seeker* tab at the top of the page.
2. On the right side under **CREATE A PROFILE** click on the **Create a Job Seeker Account** link.

The **New Resume** page presents you with a series of questions designed to gather your work experience and educational training information which is used as matching criteria to match you to jobs posted in IllinoisJobLink.com

and other job boards if you wish, while at the same time, it builds a resume for you in case you do not have one to attach.

- Resume Title: Type in the letters ASSA first so that matching employers can easily identify you as being an ASSA Member who will most likely be on hand at the annual meeting for interviews and for matching purposes, followed by a general occupational field that supports the specific overall area you are looking for and preferably have experience in. (Here is where you could choose from among the JEL general topics for economics and finance from A through R on page 11, especially if you are going into the academic field. For example: ASSA Mathematical and Quantitative Methods. Otherwise you can enter something like ASSA Research, ASSA Education or ASSA Consultant).
- Job Title: Enter job title
- Relevant Work Experience: Enter years and months, or if entry level, enter zeroes for years and months.
- Education level: Enter the highest level of education you have achieved or are about to achieve. If you are a PhD/ABD, enter PhD.
- Are you willing to move to another location for work? **YES. This is very important if you wish to match to job openings in a global market. Remember, you can always say you are not interested in the matches you get. But first you have to get the matches.**
- In what area would you like to find employment? **Also very important: Enter 60603 for matching purposes no matter where you wish to work.**
- What is the maximum distance (in miles) you are willing to commute to work one-way? Enter 255 which is the maximum distance you can enter.
- Are you willing to travel as a requirement of the job? Enter “Yes” or “No”
- What is the salary type for your desired salary? Select “Annual” or “Hourly”
- Enter your minimum desired salary: Enter only numbers in this field, for example, 30000 for annual, 23.00 for hourly.
- Are you seeking full-time or part-time work? Full Time
- What is your preferred shift? No Preference (to be safe).
- Are you willing to accept temporary work? Yes
- Do you have a valid driver’s license? Yes or no.
- Do you want job matches for this resume emailed to you? Yes.
- Select resume file to upload: If you have a resume in a Microsoft Word format ***ONLY***, attach it now by clicking on the **Browse...** button. Otherwise you will have to build a resume from your non-MS Word resume following a number of steps in the system by clicking on the **Create Resume** link below.
- After attaching your resume, click on the *Create Resume*.

- Select the job Title that most closely matches the job you are seeking.
- You may select *Talents* associated with your job title or *Save and Continue* at the bottom of the page(s).
- Resume Preview. Review your uploaded resume. When completed select *Finish*. You are now ready to conduct a Job Search (go to the **Job Search** section below).
- If you are creating your resume, the Create Resume link will take you to the **Resume has been successfully started** page. Follow the instructions under **Select Occupation – Work Wanted**.
- You will be prompted to provide the information from the following categories: an Objective Statement, Summary of Qualifications, Talents, Tools & Technologies, Work Activities. You can edit/add your Contact Method, Work Experience, Educational Experience, Achievements, Military Service and References. Select *Save and Continue*.
- When you get to Step 11 “Review/Edit Selections”, select whether you want to display the “Objective Statement” or Summary of Qualifications” on your resume. You may edit the objective statement or summary of qualifications. Be sure to delete sample text placeholders, all brackets holding the text, before finishing your resume.
- Select the boxes next to the information you would like to include on this resume. When you are finished, click **Save and Continue** at the bottom of the page to proceed to the Resume Suggestions page. After doing so, your resume will be complete. You may now conduct a Job Search.

Job Search

1. To conduct a search, click on the Job Search link in the left hand menu. When no filters are clicked or criteria entered in the What, Where, and Within boxes, the Job Search displays all active job postings in the system.
2. Enter keyword(s) or job order number in the **What** box. A drop-down list provides job title suggestions to narrow your search. You can click an option in the list or continue typing. When you are done, click the search icon (magnifying glass). (Suggestion: enter ASSA and your job title AND/OR words taken from the JEL secondary codes beginning on page 10).
 - a. If desired, add a location by entering a city and state or ZIP code in the **Where** box. If a location is entered, a search radius is required in the **Within** box.
3. The search results display.
 - a. The job results matching your keywords display below the **What** box, sorted by relevance. Job postings that have your keywords in the job title or occupation title will display at the top of the results. Below that will display jobs with your keywords anywhere in the job posting. If you aren't satisfied with your results, you can change your entry in the **What** box at any time.
 - b. When the **Where** box is empty, job results from across the state and even outside the state will display in your results. When you specify a location, you must also specify the distance in miles around which to search that location. This distance should reflect the distance the client is willing to commute or relocate. Type the number of miles in the **Within** box, then click the search icon (magnifying glass). The search results are updated and now match your keywords and location + search radius.
4. Narrow your search results using the **REFINE SEARCH** menu.

- a. To expand a category of filters, click the category. The number next to each filter within that category indicates the number of results you'll get if you add the filter. A filter will only display for selection if there are results available for that filter. For example, if there are no jobs making \$15.00 or more, you will not see the \$15.00 or more filter.
 - b. To add a filter to your search criteria, click it. Your search results will automatically update to match the filter you added. **"ASSA" under the filter labeled "Tags" will list the most recent openings for this conference.** You can see all of the filters you've added in the **FILTERED BY** section. To remove a filter and widen your search, click the **x** next to the filter. By default, the **Status: Active** filter is already selected.
5. The search results provide basic posting information including the job title, job posting number, last updated date, employer, location (city and state), and a portion of the job description. To view additional information, click the job title.
6. Save this search: If you plan on conducting more than one search, you may want to give each search a title; especially if you are entering more than one resume to the system. If so, label your search and select "Save search as".
7. Click on "Return to Job Search" at the bottom of the page and continue to work your way through your match list. You will continue to match to new employers as they will be added to the list as new employers post their job orders.
8. Results do not include indeed.com jobs. To search indeed.com jobs, click Search Other Job Banks at the right.
9. Log Out at the top of the page when finished and return whenever you wish to conduct an updated search.

Communications with Employers Prior To & At The Convention

After making initial contact with employers through **IllinoisJobLink.com** all further messages can be exchanged via the Internet.

To communicate in Chicago with employers and fellow conventioners, you can use the ASSA on-site hotel phone directory through the AEA Website. To have your name and hotel listed in the phone directory automatically, you must register for housing (or cancel your housing registration to avoid penalty) through ASSA by Thursday, December 15th. You can be added to the online directory if you enter your name and hotel information by e-mailing assa@experient-inc.com

There is no message exchange service provided at the placement center, so you may wish to bring a laptop or smart phone to exchange messages as most hotel rooms are wired for Internet service. While it is better to schedule all your interviews well in advance of your arrival in Chicago, you will continue to match to new employers during the annual meeting. Also, if an employer is interested in interviewing you, he or she may e-mail you a disclosure code on where/when the interview will take place. There is no formal on-site registration, so those who wish to register for the placement service on site will have to use their laptop or a hotel business office. We encourage everyone to register for the professional placement service in IJL no later than Tuesday, December 27th. But it is never too late to post or update your registration and resume as the system is ongoing. Be sure to check your matches throughout the convention. You can still use the placement service on line even if you don't register for the ASSA Meeting, but all job seekers must register for the ASSA Meeting in order to access the placement center on site. Again, the ASSA

Professional Placement Center is located in Riverwalk A & B of the Sheraton Grand Chicago, January 5th through 8th from 8:00 am through 5:00 pm.
